# Compact and Stylish The All-in-One A4 Multi-Function Printer

The Panasonic KX-MB2000 Series of compact multi-functional printers are an excellent choice for small offices and remote home offices. They feature a 24-ppm high-speed printer, diverse copy functions, a high-resolution colour scanner with up to 9600 dpi (interpolated), a 33.6 kbps Super G3 Fax\*<sup>1</sup>, and a standard network connection\*<sup>2</sup>. They also come bundled with the Easy Print Utility, which includes a print image control function that simplifies the production of complex documents. The compact KX-MB2000 Series body contains the functions you need for business.

\*<sup>1</sup> Fax function is available on the KX-MB2030CX and KX-MB2025CX.

\*<sup>2</sup> Network connection is available on the KX-MB2030CX and KX-MB2010CX.

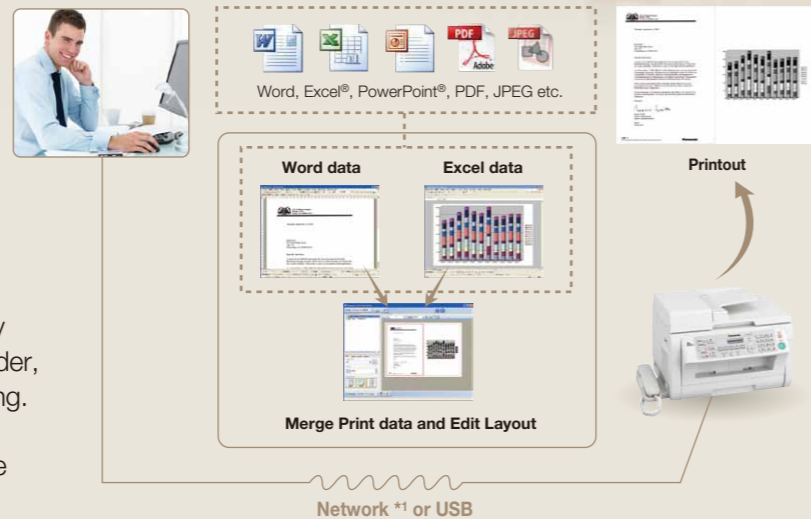

## Data Merge and Print

### Easy Print Utility

The Easy Print Utility is an integrated printing tool that lets you merge and print files created using different applications, such as Microsoft Word and Excel.

You can check the final image on a PC before printing, or edit the layout by rearranging pages or changing the pages to a 2-in-1, or all the way up to a 16-in-1 format. You can also add a header, footer or watermark to documents before printing. After editing the layout, you can save the image as a PDF file. These functions greatly reduce the number of trial prints and misprints.

\*<sup>1</sup> Network connection is available on the KX-MB2030CX and KX-MB2010CX.

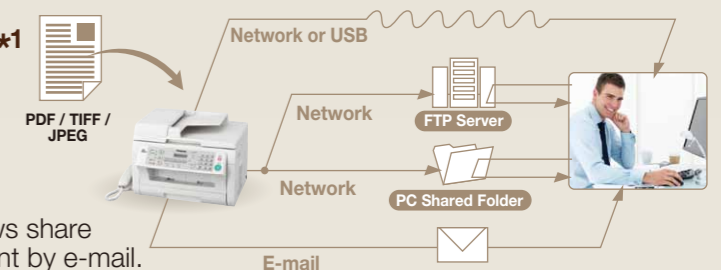

## Easy Scanning

### Network Colour Scanner Function \*<sup>1</sup>

Documents can be easily scanned into a PC in colour. Scanned data can also be sent in the appropriate data format directly to the bundled OCR software on a PC, to easily convert it to editable text without requiring any PC operation. Scanned data can also be saved to a Windows share folder or an FTP server, without using a PC, and then sent by e-mail.

\*<sup>1</sup> This function is available on the KX-MB2030CX and KX-MB2010CX. KX-MB2025CX and KX-MB1900CX can use colour scanner function via USB connection.

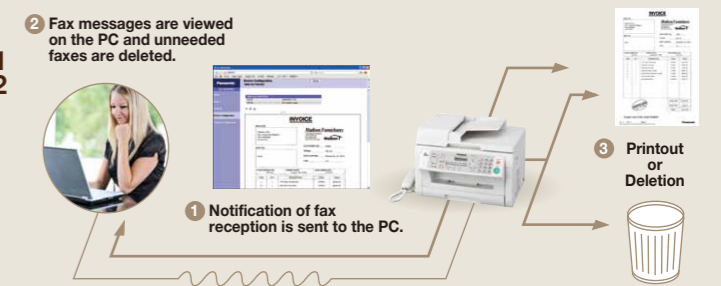

## Reducing Unnecessary Printouts

### Incoming Fax Web Preview Function \*<sup>1</sup>

You can read the faxes you receive on a PC first, and then decide whether you want to print them, save them to the PC, or delete them. This previewing ability minimises wasteful printouts.

\*<sup>1</sup> This function is available on the KX-MB2030CX only.

\*<sup>2</sup> LAN connection only

## Diverse Copy Layout Editing

### Convenient Copy Functions

#### Quick ID Copy

Copy both sides of one or more ID or business cards consecutively, and then print onto a single page in the 2-in-1, 4-in-1 or 8-in-1 format. This reduces paper consumption and simplifies information management.

#### Image Repeat

Copy one original and print it repeatedly on a single page in the 2-in-1, 4-in-1 or 8-in-1 format. This makes it easy to produce items like tickets.

## Reliable Faxing with Voice Communication

### Standard Handset \*<sup>1</sup>

The standard-equipped handset lets you call the recipient to confirm that a fax has arrived immediately after sending. This increases faxing reliability.

\*<sup>1</sup> Handset is available on the KX-MB2030CX and KX-MB2025CX.

## Easy for Everyone to Use

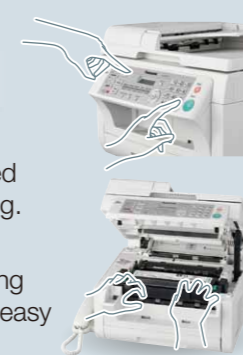

### Universal Design

#### Tilted Control Panel

The control panel is ergonomically tilted for easy use whether standing or sitting.

#### Front Access

Replacing consumables and replenishing paper are all done at the front side, for easy maintenance in a comfortable posture.

## Easy Machine Management

### Configuration Web Page \*<sup>1</sup>

You can check the device status and toner level with a Web browser, and make device system settings right from a PC.

\*<sup>1</sup> This function is available on the KX-MB2030CX and KX-MB2010CX.
